Secure Your Home

Simplify Your Life

M1 Security & Automation Controls

ELK PRODUCTS

Security and Automation Made Simple

The M1 Security and Automation Control System offers convenience, comfort and simplicity by combining security, energy management, and home control solutions.

M1 gives you peace of mind with comprehensive detection and reporting capabilities to protect your family and your home. Easy system expansion ensures M1 will be the right fit today and in the future. It is the perfect system for a new or existing home with support for wireless sensors.

Experience lifestyle enhancing comfort and convenience with intelligent control solutions and simple, user friendly interfaces. With a flexible and integration friendly approach, M1 can manage and control lights, thermostats, sprinklers, water valves, garage doors, gates, spas, and other electrical devices.

Security & Safety

Intrusion • Fire • Carbon Monoxide • Medical Emergencies
Water Leaks • High/Low Temperatures

M1 goes beyond basic security with enhanced features for added safety and convenience.

- Receive event notifications on or off site with voice alerts, keypad alerts, phone calls, emails and text messages
- Reduce costly and embarrassing false alarms with two-way alarm verification
- Easily turn on outside lights with a keyfob to create a safely lit pathway from your car to your home
- Enhance security with integrated door locks
- Receive notification when children arrive home from school

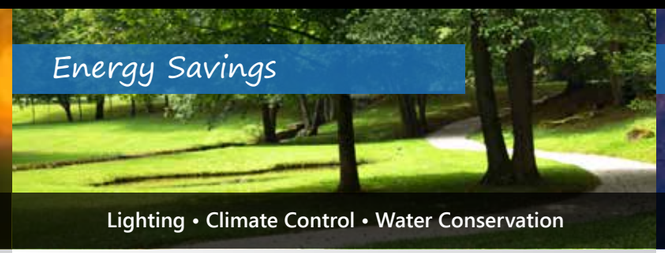

Control at Your Fingertips

Smartphones • Tablets • PCs • Touchscreens • Keypads

M1 provides timely access to information and easy-to-use interfaces to keep you informed and in control.

- Control your system from anywhere with a variety of software and apps. No monthly fees required!
- Get the right keypads to meet your needs and match your decor with options ranging from user friendly touch screens to discrete arming stations
- Receive text or email notifications of important system events right to your phone.

Energy Savings

Lighting • Climate Control • Water Conservation

M1 energy management solutions help you reduce energy costs without sacrificing comfort.

- Automatically turn lights off in unoccupied rooms
- Use lighting scenes and dimmed settings to reduce energy consumption
- Automatically control thermostats based on time of day, occupancy, and/or ambient conditions
- Turn off electric water heater while away
- Conserve water with scheduled control of sprinklers

Lighting Solutions

Safety • Convenience • Ambiance

With M1, lighting control goes beyond energy savings to improve safety and enhance the enjoyment of your home.

- Built-in astronomical clock provides intelligent lighting control based on sunrise/sunset
- When an alarm is activated, lights turn on or flash
- Lights turn on after dark when motion is detected
- Start your day by awakening to soft lighting that progressively brightens your room
- Use a simple key press at bedtime to turn off all the lights in the house

So much more than just a security system...

Relax knowing M1 is managing your home and providing the solutions you need for an enjoyable lifestyle.

- Use lighting to create a "lived in" look while on vacation
- Set back thermostats, adjust lighting and turn off water for safety and efficiency while you're away
- Keep watch over elderly loved ones through activity monitoring
- Be alerted to someone entering the pool area
- Know when system has been armed or disarmed by a caregiver, grounds keeper, loved one, etc.
- Make your home safer and more accessible for those with disabilities
- Be alerted to visitors entering your driveway
- Get alerts if the temperature in the wine cellar is too high or low
- Get reminders to change water/air filters, replace smoke detector batteries, take trash to curb, etc.
